

The following medical information must accompany all personnel:

- 1) Annotation of blood type and Rh factor, HIV, and DNA.
- 2) Current medications and allergies. Include any preventive medications prescribed and dispensed to an individual.
- 3) Special duty qualifications.
- 4) Annotation of corrective lens prescription.
- 5) Summary sheet of current and past medical and surgical problems.
(DD Form 2807-1)
- 6) Copy of DD 2795 Forms: DD 2795 (Pre-Deployment Health Assessment)
(Pre-deployment Health Assessment Form).
- 7) Documentation of dental status class I or II.
- 8) Immunization record: Must accurately reflect the current status for all immunizations at the time of departure (i.e. last minute immunizations provided on the deployment line must be annotated in the deployment medical record prior to departure. These must be promptly entered into electronic data system to ensure receiving medics in the AOR have access to accurate data for each inbound member).
